About Me

A passionate undergraduate at the University of Moratuwa with a strong foundation in programming languages, eager to pursue a career as a software engineer. An ambitious individual who makes use of problem-solving skills, effective communication, and a collaborative mindset to contribute to innovative projects. I excel in working in team environments, combining strong leadership qualities with adaptability and a commitment to continuous learning.

Education

University of Moratuwa, Sri Lanka | 2021–2025(Expected)

BSc (Hons) in Information Technology – Current GPA: 3.63 (Up to Level 3 Semester 2)

Wisdom Business Academy | 2019–2020

CIMA certificate level qualification

AIB Sri Lanka | 2020–2021

Diploma in Digital Marketing

Ananda College Colombo | 2016–2019

G.C.E Advanced Level Examination | 2019

Physical Science Stream: Combined Mathematics—A | Physics—B | Chemistry—A | Z-score: 1.455 | old syllabus

Lyceum International School | 2003–2015

G.C.E Ordinary Level Examination | 2015 – 9A's

Technical Skills

Programming Languages:

Java, C#, Python, C

Web Development:

JavaScript, ReactJS, Reactnative,
NextJS, ASP.NET Core, NodeJS,
Springboot

Database:

MySQL, MSSQL, MongoDB

IDEs:

IntelliJ IDEA, CLion, Visual Studio,
Code Blocks, VSCode, Xcode, Atmel
Studio, Android Studio

Version Controlling:

Git

Other:

Figma, KiCad, SketchUp, Proteus
Simulation, JUnit, Camel, Cucumber,
Playwright

Experiences

Software Engineer Intern | January 2024– June 2024

DirectFN

Created a GraphQL Endpoint : I was responsible for creating a GraphQL endpoint in the company's ESB. Additionally, I created and tested plugins and supported the transition from Camel 3 to Camel 4 in the ESB.

Unit Testing and Sonar /SNYK issue Fixing : Was responsible for bringing the unit test line percentage of the company ESB up to a standard 40%. Assisted in fixing bugs and issues found in Sonar and SNYK.

Frontend and Backend Development: I contributed to both the frontend and backend development of the company's ESB.

Technical Writing Intern | 2023– 2024

Techylo Solutions

IT Assistant | 2020– 2024

MDK Food Products (Pvt) Ltd.

Web Developer | Rotaract Club | University of Moratuwa

Prefect | Lyceum International School

Projects

Smart Ventilator System

First Year | Hardware Project

A smart ventilator system that automates the supply of oxygen to patients according to their blood oxygen level. Sensors measure the patient's vital information, and solenoid valves control the oxygen supply when required.

Role: Group Leader | Programmer

Technologies: C language, Atmel Studio, Proteus Simulation, KiCad, EasyEDA

Procurement Management System

Second Year | Software Project

A software solution that helps organizations streamline and automate the process of purchasing goods, from the requisition of items to the payment to vendors, ensuring efficient procurement operations. This process also includes the selection of vendors and the filtering of appropriate items and services required by an organization.

Role: Team Member | Full-Stack Developer

Technologies: ReactJS, ASP.Net Core, MSSQL

Car Rental Website | Ongoing

A car rental system where users can select cars from a filtered list based on car type, rental and return locations, and rental dates. The system supports secure payment processing and allows users to make bookings seamlessly.

Role: Group Leader | Full-Stack Developer

Technologies: NextJS, ASP.Net Core, MYSQL

Automated Step-By-Step Visual Performance Guide Generation from Sinhala Demonstration Videos

Final Year Project | Ongoing

A system that automatically creates visual performance guides from Sinhala demonstration videos, letting viewers to swiftly understand crucial information using synced text and images.

Technologies: NLP, Python

Password Management & Secure Generation Solution

This project is a solution that helps you securely store, organize, and manage your passwords for different websites and platforms. It allows you to easily access and view your credentials with a user-friendly interface. Additionally, it includes a robust password generator, enabling you to create strong, unique passwords for each account.

Technologies: ReactJS, MongoDB, NodeJS

Certifications

Google Ads Search Certification

Natural Language Processing

Google Analytics Individual Qualification

| Great Learning Academy

CS50: Introduction to Computer Science

Participations

Realhack 4.0 competition | participant

Event-OCTWAVE | Webinar on Artificial Intelligence

MoraXtreme 7.0 | participant

and Machine Learning | participant

Extracurricular Activities

Basketball, Football | University of Moratuwa

Toastmasters Club, Rotaract Club, Leo Club | University of Moratuwa | member

Soft Skills

Teamwork, Leadership, Honesty, Adaptability, Communication, Creativity
